

Introduction to Blockchain

Suyash Sumaroo

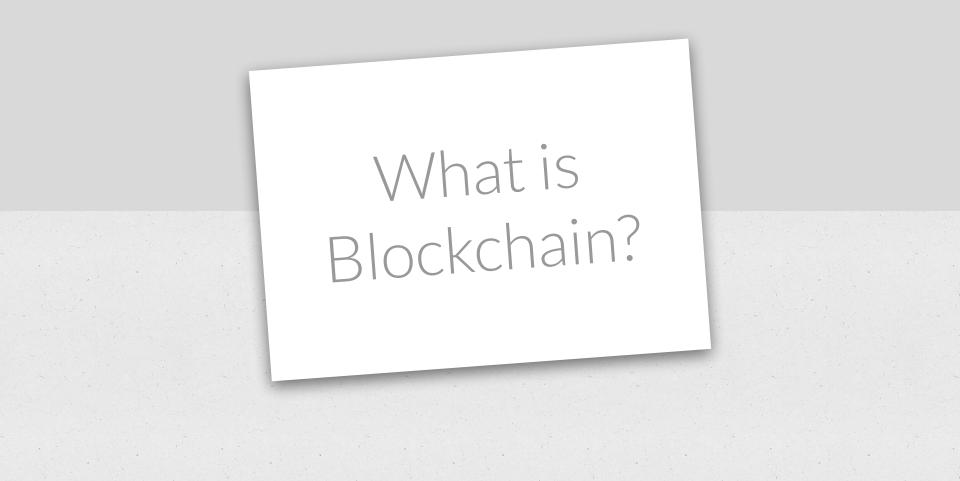

Akash Balluck Co-Founder (COO)

Asha Moodoo

Lead Developer

Suyash Sumaroo

Co-Founder (CTO)

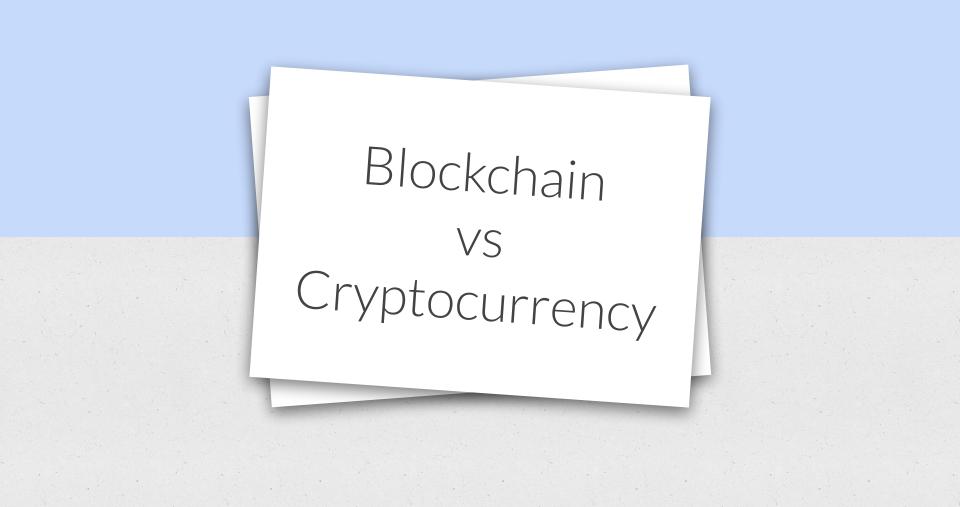

Decentralization

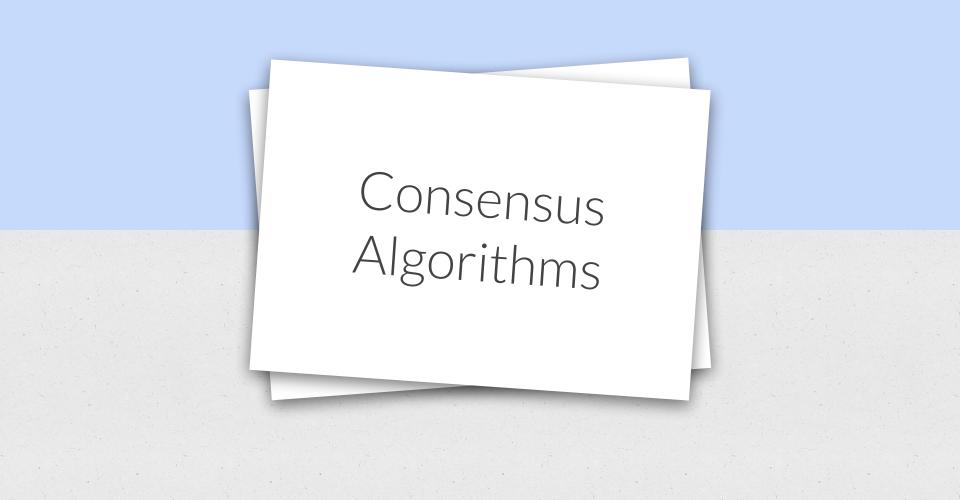

Centralization -The way our society works

How blockchain is an alternative to centralized systems? It's just the START

A blockchain is the platform on which things can be built. Cryptocurrencies are just applications running on top of a blockchain.

SMART CONTRACTS and DAPPs

Proof of Work

Powerful mining software needed

Proof of Stake

No mining software needed

Proof of Authority

> No mining needed

What it means for you?

Career

Blockchain programmers are among the highest paid in the world right now.

Entrepreneur

Huge opportunities to start your business in the blockchain field. Innovation

Be the first to develop new solutions.

Sponsorship

1 student from each university

Criteria

1. Programming skills

2. Submission of an interesting use-case in Blockchain Duration

2 months intensive training aiming to develop a MVP
