## 2. Artwork Information (continued)

Artist Statement - A detailed story about the creator, their artistic inspiration and the creation process of the **specific** artwork for viewer's understanding.

I am Enjon Chakraborty, a 3D concept artist from India. I created this series of artworks to bring to life an adventure thriller story that has been cooking in my head. Right now, these artworks describe the key moments in the plot. In the near future, I plan to make an animated series based on this plot and its artworks.

The story: There have been reports from The Pentagon regarding large human bones found in the Nakahi desert. However, they always mysteriously disappear when any officials or search teams come to the location to investigate them. But this time, a whole human skull was spotted by The Pentagon. Needless to say that yet another investigation team was hastily appointed. The Nakahi Research Facility has once again been under strict supervision due to these incidents, and experts are also doubting that the Zemya Bomba project was just a cover-up for something even more dangerous.
