2. Artwork Information (continued)

Artist Statement - A detailed story about the creator, their artistic inspiration and the creation process of the **specific** artwork for viewer's understanding.

Matteo Scappin is a fractal artist who loves mixing extremely complex fractals with everyday objects to create unique digital artworks, and bring the abstract world of mathematics to the daily reality we live in. Matteo's artworks are characterized by their vibrant colors and intricate patterns. He often uses his own fractal algorithms to generate the complex shapes and patterns that are his signature style.

In 2018, he teamed up with Jesper Nybroe, an expert in the VFX field. They created "Machina Infinitum," a VFX studio focused on the creation of digital art, motion graphics, and visual effects that are all based on fractals.

Dimension Traveler (Part 2):

Behold this parallel dimension, an untapped world ready to be explored, how it embraces a foreign being, and procures a sense of peace through its natural beauty. Behold its waters, how it safely ripples around the creature. This is a world to be shared among many, thereby creating a safe haven for all.
