Artist Statement - A detailed story about the work for viewer's understanding.

I envision and build digital alternate realities. Artworks that are abstract but somewhat referential, including images and symbols originating from the physical world.

The energy lent to me by the psychic breeze to create Institute II, is embellishing the complex and perfect balance that nature beholds. And as much far away as I can marvel in thought, irrevocably nature is very stylish. The myriads connection it transforms for each flora and fauna to fall into a beautiful collision of unconditional help towards each other and in such fashion... is a miracle. But an ordinary miracle to our eyes.

Let us re-learn and re-build the ever green symphony in our minds because nature has not changed but our behavior did, and not entirely for the better.

Nature is a giver to us, and our best minds are still in wonder of how it does. To me, I'd rather stay in that wonderment in an ever-exploring journey. And I believe, nature communicates with us telepathically, because we never fall short for being contoured and amazed through and through.

We have so much to be and to become with a brand new encyclopedia of our own dreams. An institute of liberty, love, lush, lavish, and the list goes on.

I bid you a fresh welcome to the second scene of the psychic breeze garden.
