2. Artwork Information (continued)

Artist Statement - A detailed story about the creator, their artistic inspiration and the creation process of the **specific** artwork for viewer's understanding.

Alexander is self - taught 2D and 3D graphic design enthusiast, game builder, story teller. His art is inspired by development of new technology, metaverse and possession of human being.

These timepieces were found in the newly discovered district of Archalic. Presumably left over from the dimensional crash that formed Lootverse, they appear to combine structural, design, and material elements left behind from several worlds including earth.

Preliminary inspections indicate that the core materials that make up these beautiful watches are a combination of never seen before, colored gold, and other rare unidentifiable metals.

This timepiece was formed from the Lootverse dimensional crash, that left behind elements of several worlds including earth.
