Artist Statement - A detailed story about the work for viewer's understanding.

Each digital piece in this series is a portal, a way to circumvent the limitations, the illusion of this world, and tap into pathways of higher states of consciousness.

My intention is to give people the ability to use art as a way to shift their reality and explore something new and unseen. When I create, I draw down light from the higher realms and shape this light into movement and color. In a sense it is letting go. Releasing the shackles which bind me to the physical world so I may walk upon a different plane, the realm of the spirit.

"Song of the Burning Bush" invites us to envision a gateway to connect to the chambers of our inner selves and forge a pathway to commune with the divine.

Breath & exhale as all the narratives in your life fade away. The stories, the doubt... all of it disintegrates in the fiery and calm anchor of your breath. Let go of everything that doesn't serve you. Become an empty vessel.

Now allow your eyes to be drawn into the this digital doorway from the bottom of the art work riding the explosive, arcing dark ultramarine waves. Allow your ego to disintegrate with all the millions of shards of green, turquoise and white melting strands as your gaze moves towards the center. Feel the beauty of rebirth as you enter the portal, the yellow-golden torch in the center of the piece.

This is my vision of a possible gateway that our ancestors used to communicate with the divine. We can access this ancient energy right now. We all have the song of the burning bush within us. Open this portal. Right now. Via your breath, your eyes and the fertile field of your imagination... When you are ready, offer words to universe, allow yourself to emerge with the greater oneness and see the wisdom the portal allows you to unearth.
