

SUPPLEMENT

TO THE

LOOTVERSE

Government Gazette

PUBLISHED BY AUTHORITY

No. 001]
25th JAN

THE CONSTITUTION OF THE LOOTVERSE

[2022.

Too often, expressions of self and human progress are limited by the judgment of others. We all dream of doing passionate work, experimenting, being creative, building something crazy, or maybe something extraordinary.

Colors, shapes, and norms do not apply when we are in this parallel world devoted to who we are. There, we live true and become free. The Lootverse honors you without the numbing and time-killing escapism. Do more, be more.

[1] The Parliament shall consider, debate, and decide on matters of importance to the Lootverse. The Lootversian Foundation shall have veto power over such decisions up until such time as all parliamentary seats, bar the seats of Councillors, are taken up.

[2] The Parliament shall only create motions and vary the allowable parameters shown in the Parliamentary module, as modified from time to time by the Lootversian Foundation. The Parliament may not amend systems deemed essential to the Lootverse to function, for example, the removal of plots, changes in ownership, etc.

The Lootversian Foundation shall be represented by the Loot NFT Core team members, as indicated by the CEO or COO of that organization.

Collectively, we are bigger than just a metaverse.
